CV15, CV17 300 Micron APET Face Shield (100)

These products are classed as Category III Personal Protective Equipment (PPE) by the European PPE Regulation (EU) 2016/425 and have been shown to comply with this Regulation through limited testing against the Harmonised European Standard EN 166:2001 (see below).

This product is designed to provide some protection against contact with airborne droplets that may constitute a biological hazard.

However, always remember that no item of PPE can provide full protection and care must always be taken while carrying out the risk-related activity.

Never use this visor for protection against other hazards for which the product is not designed for or tested against.

PERFORMANCE AND LIMITATIONS OF USE

These products have been tested in accordance with EN 166: 2001 Clauses: 6 ; Design; 7.1.1 ; Field of vision; 7.1.2.1 ; Refractive powers; 7.1.2.2 ; Transmittance; 7.1.2.3 ; Diffusion of light; 7.1.3 ; Quality of materials; 7.1.5.1 ; Stability at elevated temperature; 7.1.7 ; Resistance to ignition; 7.2.4 ; Droplets and splashes of liquids

FITTING AND SIZING

To put on and take off products please refer to the user instructions. Only wear products of a suitable size that are correctly adjusted. Products which are too loose may not stay in place and if too tight will be uncomfortable.

COMPATIBILITY

To optimise protection, it will be necessary to use these products with suitable gloves/gowns/masks. In this case, before carrying out the risk-related activity, consult your supplier or supervisor to ensure that all your protective products are compatible and suitable for your application.

WARNING

Parts of the visor that come into contact with your skin may lead to allergic reactions. In this case please discontinue use and seek medical advice.

STORAGE AND TRANSPORT

When not in use, store the visor in a well-ventilated area away from extremes of temperature. Never place heavy items on top of it. If possible, avoid excessive folding and preferably store it hanging vertically. If the product is wet, allow it to dry fully before placing it into storage. Please store the product in a dark place away from sunlight when not in use.

OBSOLESCENCE

This visor has a shelf life of 3 years. Service life will depend on usage conditions but the visor should be disposed of and replaced if badly scratched or damaged in some way that prevents safe use

REPAIR

If the visor becomes damaged, it will NOT provide the optimum level of protection, and therefore should be immediately either replaced. Never use the damaged product. If in doubt always consult the manufacturer before attempting a repair.

CLEANING

Only use the following recommended cleaning treatment - Rinse with warm soapy water NEVER use solvent based cleaning agents.

Razor blades or other sharp tools, abrasive or strongly alkaline detergents, solvents, leaded benzene and carbon tetrachloride

should not be used.

Use a microfiber cloth that is simply dampened with water.

In the case of a greater build-up of dirt or greasy stains in particular, use acetone – and benzene-free solvent cleaners or thinners.

NB: All of the above only applies to the Outside of the Visor where no Anti Fog coating has been applied.

The COVID 19 recommendations is that all employees in all industries wash their visor at the end of the working day in nothing more than warm Soapy Water.

MARKING

The product is marked with:

- The CE mark showing that the product meets the requirements of the PPE Regulation (EU) 2016/425.
- Identification of the manufacturer and the product code/Article number.
- The book pictogram indicating read these instructions
