

EU-TYPE EXAMINATION CERTIFICATE

The following model of Personal Protective Equipment has been subjected to an EU-type examination in accordance with the module B of the PPE regulation (2016/425) and has been shown to satisfy to essential health and safety requirements.

Certificate N° 0075/2085/161/07/20/1921

Issued by CTC, Notified Body N°0075, to the following model of personal protective equipment :

Manufacturer : Portwest UC
IDA Industrial Park, Westport, Co Mayo F28 FY88, Ireland
IRELAND

Description

PPE Type : *a safety footwear*
Product reference : FT50
Article code : /
Construction and material of outsole : INJECTION / PU/PU OUTSOLE

Pictures :

PORTWEST® Westport, County Mayo F28 FY88, Ireland		
EU 38	UK 5	US 6
CE EN ISO20345:2011 S1 SRC		
FT50	LOT: DATE:	
RN 142543 Made in China		

Reference standard : EN ISO 20345 : 2011

Classification : I **Category :** S1 SRC

Size range : 35-50 **Slip resistance :** SRC

Toecap nature : Metallic **Insert nature :** N/A

At the date of certificate the product is in compliance with Annex XVII of REACH regulation (n° 1907/2006 and revisions)

Full description of the PPE, reference rules verified in the context of the EU-type examination and information given on the product are detailed in the manufacturer's technical file index 01 dated from JULY, 2020

NOTA : Any modification to new items of the personal protective equipment object of this EU type approval certificate or any modification of the information contained in the manufacturer technical file which served for the deliverance of the EU type approval certificate (change of address, change of company status) should be brought to the attention of the notified body in accordance with Annex V §7.2 of Regulation 2016/425. Any marking on the PPE which is not concerned by the Regulation (UE) 2016/425, is not covered by this certificate.

Issued in Lyon by

Didier GUISSADO

Certification and Quality Manager

Date of first issue : 03 July 2020

End of validity date : 03 July 2025

Accreditation n° 5-0594
Scope available on:

FOOTWEAR DESCRIPTION

Footwear description:

The classification of this footwear is: I : Footwear made from leather and other materials, excluding all-rubber or all-polymeric footwear

The design of this footwear is: A : low shoe

Visual description:

General view :

Outsole view :

Reference of the mould : 9200

Range of sizes :

35-50

Construction and material of outsole :

INJECTION / PU/PU OUTSOLE

Field of use

construction, warehouse, supermarket - mechanical risk

Risk assessment (Essential Health and Safety Requirement. Annex II - PPE Regulation)				
		Applicable	Covered by	
§1	Requirements defined in the Annex II §1 are applicable to all PPE	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Standard
			<input checked="" type="checkbox"/>	Instruction for use
			<input checked="" type="checkbox"/>	Marking
§1.4	Manufacturer's instructions and information is available	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Standard
			<input checked="" type="checkbox"/>	Instruction for use
			<input type="checkbox"/>	Marking
§2.2	PPE is designed and manufactured in a way that perspiration resulting from use is minimised. Otherwise it must be equipped with means of absorbing perspiration.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Standard
			<input checked="" type="checkbox"/>	Instruction for use
			<input type="checkbox"/>	Marking
§2.4	If it is known that the design performance of new PPE may be significantly affected by ageing, the month and year of manufacture and/or, if possible, the month and year of obsolescence must be indelibly and unambiguously marked on each item of PPE placed on the market and on its packaging.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Standard

VAMP LINING	LB211	NON WOVEN FABRIC	WHITE
QUARTER LINING	LB149	SANDWICH MESH(quarter lining/tongue lining)	LEMON YELLOW
	G51	MICROFIBER(SEAT REGION LINING)	GREY
INSOCK	STYLE1	terry + EVA with micro-perforated	black/grey
OUTSOLE	9200	PU/PU DAUL DENSITY OUTSOLE	BLACK/GREY
INSOLE	FL104	NON WOVEN FABRIC	BEIGE
TOE CAP	604	STEEL TOECAP	GREY
DECORATIVE ELEMENTS		PLASTIC EYELET	BLACK
		WEBBING(TONGUE NOSE)	BLACK/LEMON YELLOW

PROTECTION SCOPE

Basic requirements :

This product has been designed to be a safety footwear.

The technical rules are :

European Standard EN ISO 20344 : 2011 Personal protective equipment - test methods for footwear

European Standard EN ISO 20345 : 2011 : Personal protective equipment - Safety footwear

It is a category II product

Requirement of the standard EN ISO 20345 : 2011 concerning the value of the coefficient of friction of ceramic tiles floor with detergent solution and steel floor with glycerol (SRC)

Requirement of the paragraph 5.8.1. Design of the standard EN ISO 20345 : 2011 concerning cleated outsole.

At the date of certificate, the product is in compliance with Annex XVII of European REACH regulation (n° 1907/2006 and revisions)

Additional requirements :

The additional requirements are :

- Closed seat region
- Antistatic footwear
- Energy absorption of seat region
- Fuel oil resistance

MARKING - PACKAGING

Information printed on the footwear :

- * Logo of the authorized representative
- * Logo **CE**
- * Manufacturer's type designation
- * Postal address of manufacturer
- * Footwear's reference FT50
- * Article code /
- * Size
- * Year of manufacture and at least quarter
- * The number and year of the Standard used
- * The symbol(s) of the additional requirements

Marking example :

The location of marking is : tongue lining

Method of marking on the footwear :

Stitching on inside tongue

Packaging :

1 pr per box, 10 prs per carton

MEANS OF CONTROL

1.To control the quality of raw materials follow the methods below:

We asked our suppliers to test their upper leather for Cr VI, PH and DMFu by themselves; asked lining suppliers to check tear strength, especially abrasion resistance; and the suppliers for toecaps and insert need to test impact/compression and penetration resistance for their components...after all raw material can reach relevant requirement, we will accept them and use in mass production.

2. During development, we will take some samples to check the main physical properties, such as impact, compression, slip resistance, antistatic and so forth, in order that we can control the quality from development and will avoid some additional troubles in the following steps; if the result can meet requirement, we will process forward; otherwise we need pay more attention to development for the better shoes;

3. We control the whole procedure from cutting to package. Every step, relevant QC will check the quality, the semi-finished goods and finished shoes will be discarded if cannot reach requirement of quality. Of course we take some samples from line to test bond strength, impact ect to confirm the mass production are under control. Finally, before shipment, the QC will perform the final inspection randomly, the shoes will be delivered in case the result is acceptable.

4. When do bulk the production each batch, we shall pick up some shoes from producing site randomly to test impact, compression, antistatics, leather CR VI.... to control the quality to match the requirment of standand EN ISO20345:2011."

PPE subject to ageing :

Peremption period : 4 years when stored in appropriate conditions (humidity, temperature, clean , ventilated, light). Before use, the footwear shall be visually controlled, in case of deterioration the footwear must be scrapped (abrasion, cut, tear, ...).

Declaration of conformity :

Available on : www.portwest.com/declaration
